

PRODUCT INFORMATION

COMBIHOLE TRACK 3009

STEEL 3048mm 2,3mm FH

SAP 10010702

Load restraint 3009 Combihole Track is the most popular heavy-duty track worldwide in the transport industry. The 3009 Combihole Track has been fitted with slots combined with holes. This makes it a versatile load restraint track that will be mounted in horizontal direction to the side panel.

- Heavy-duty track
- The combined slot and hole give a shorter smaller pitch between holes – maximising the load restraint possibilities

Application

- Used in combination with e.g. Shoring Poles, Straps, Decking Beams and Garment Rails

Mounting

- Mounted with either screws or rivets, track has already been equipped with fixing holes
- Can be mounted to side panel in horizontal direction

Benefits

- The LoadLok 3009 Combihole track is the benchmark
- Heavy-duty track
- Suitable for multiple applications
- Compatible with many LoadLok products
- European quality
